ABOUT OUR PRODUCTS

Always tan with professional cosmetic product!

- This way you will gain the desired outcome much faster.
- Your skin will be properly hydrated, without any wrinkles or skin discolorations.
- You will be able to maintain a longer lasting and more spectacular tan.

You have no idea which cosmetic product you should choose?

Ask for Soleo samples and testers in your tanning salon!

- 5 ml sample enables to evaluate the aroma and texture.
- 15 ml tester makes it possible to verify the activity of the cosmetic product during tanning on the whole skin.

In order to facilitate the selection of the product, look for the following signs:

What is the target group?

What is the composition of the product and what additional properties does it have?

How does it smell?

What is the offered volume of the product?
